presentations

- giving a presentation is a craft
 - takes practice
 - talk slowly and clearly ... make eye contact
 - try not to simply read slides
 - slides give high-level info
 - talk fills in rest
- references should be complete
 - i.e. allow reader to find document being cited
 - should be referred to on slides

final report

- 8000 words, due 3rd January
 - email or hand in to front desk
- extend four team assignments
 - does not necessarily have to exactly match assignments
 - lessons learned from feedback
 - knowledge gained from classes
 - does not have to be 100% positive
 - highlight potential issues
- we are looking for evidence of thought process

questions/discussion
